

**LEGO® Robotics  
is coming to  
Hawthorne!**

**Don't miss out  
on this exciting  
after-school  
opportunity!**

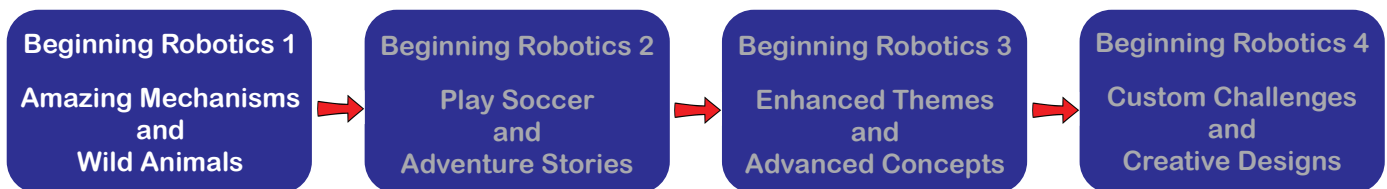

**Tuesdays from 2:30 PM to 3:30 PM  
10 Weeks -- March 29, 2011 to June 7, 2011  
(No class on April 19th due to Spring Break)**

# **Beginning Robotics 1 \$79**

**(Designed for children new to LEGO Robotics in Grades 1 - 3)**

Beginning Robotics is an exciting technology program for young learners. Using LEGO Robotics WeDo activity sets and interactive multimedia technology, children develop robotics knowledge while working collaboratively. Students learn the basics about gears, levers, pulleys, motors, and various sensors, while programming (which is undoubtedly the most challenging part of LEGO Robotics) is simplified and helps children begin to understand and explain concepts crucial to managing and evaluating robot behavior.

**Registration opens on:  
Friday, March 11, 2011**

**Register online:
